

# Overview project material

Injection moulding:	CAPROWAX P™ 6002-00-000
<b>New development:</b>	<b>BioMineralComposite</b>
<b>5kg sample available:</b>	<b>CAPROWAX P™ 6006-C65-BM4225</b>
Monofilaments, hotmelt, matrix:	CAPROWAX P™ 6006-00-000
Vacuum forming, blow moulding:	CAPROWAX P™ 6006-C1-11
<b>New development:</b>	<b>CAPROWAX P™ 6006-C65-BM4225</b>
<b>5kg sample available:</b>	<b>CAPROWAX P™ 6006-C65-BM4225</b>
Plasticine, modelling bloc	CAPROWAX P™ 6070-T215
Hydrophobising:	CAPROWAX P™ 77-1004
Bio-Dry-Blend-NF-Composites:	CAPROWAX P™ 6006-C65 (intermediate) + 20%, 30%, 40 % content of nature fibres NF40xx: cellulosic fibres NF41xx: resin free wood fibres

---

Sampling/Test material:  
300g/1000g fragmented or powder  
upon consultation

Material for projects  
upon consultation/calculation: Costs for minimum order quantities of raw  
material, Production- / Know-How-Costs,  
Minimum production quantities

Miscellaneous: Product information and MSDS
