

Project Foams, Hydrophobicity, Bio-Reactor

CAPROWAX P™ 6002-00-000 pellets

CAPROWAX P™ 6002-65-000 powder mixture

CAPROWAX P™ 77-1004-000 pellets

CAPROWAX P™ 77-65-1004 powder mixture

- to create foams and chips with pressured N2 or CO2 or added blowing agent
- for compounds to hydrophobize water-sensitive bioplastic or water-sensitive NF-Bio-Composites
- bioaktiv, compostable bioreactor for waste water treatment

Key word	Sector	Product application
Agro tec	Horticulture Agriculture Nursery Greenhouse Floristic	Vacuum forming, Foams, Chips NF-Fibres sheet mould composites Sandwich sheets Sinter material Core material
	Waste water Treatment	Bioreactor
Packing tec	Packing	Vacuum forming, Foams, Chips NF-Fibres sheet mould composites Sinter material, Core material Card board box Kartonage
	Prepregs Pre-product	water-sensitive Composites

CAPROWAX P™ compostable of course
